## Solutions for Complex Upper Extremity Trauma

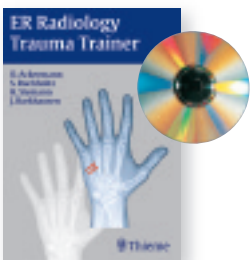

David M. Dines, MD, Dean G. Lorch, MD, and David L. Helfet, MD

Written by leading trauma surgeons, this book is a state-of-the-art reference for current best practices for managing acute and chronic trauma and reconstructive problems post-trauma in the upper extremity. Chapters are arranged according to the anatomic location of the problem, progressing from the shoulder girdle down to the forearm. Each chapter presents authoritative coverage of anatomy, etiology, nonoperative treatments, surgical techniques, rehabilitation, and outcomes. This unique book, complete with expert insights and focused, in-depth coverage of trauma management is ideal for orthopaedic and trauma surgeons at all levels of experience, residents, and fellows.

**HIGHLIGHTS**

- Clinical insights from internationally recognized authorities
- Comprehensive coverage of both acute and chronic situations
- Recommendations for handling special situations, including history of prior surgeries and bone loss, and other comorbidities, such as osteopenia and rheumatoid arthritis
- Guidelines for managing complications, such as infection, instability, stiffness, and neurologic symptoms
- More than 250 high-quality photographs and drawings that demonstrate technical concepts and key points

## ER Radiology Trauma Trainer DVD

Ole Ackermann, MD, Steffen Ruchholtz, MD,  
Holger Siemann, and Joerg Barkhausen, MD

This user-friendly DVD represents a remarkable learning tool for orthopaedists, surgeons, and radiologists involved in the diagnosis of trauma in the emergency room. With over 1,600 radiographs, the program opens by covering the most important skeletal landmarks in normal x-rays. It then presents the most important pathologic findings in a training format. The main feature of this DVD is a simulation of the diagnostic process at the light box. The simulation provides hundreds of cases that challenge the viewer to determine whether the image shows signs of trauma. The program provides valuable feedback on responses.
