**EDITORS**  
Roy R. Casiano  
Dept. of Otolaryngology  
University of Miami  
Miami, FL, USA

**DESCRIPTION**  
This book demonstrates the most relevant techniques that enable residents to safely navigate the complex anatomy of the nose and paranasal sinuses. Organized in a stepwise approach and designed to mirror a resident's progression in the lab, this new edition of the succinct and user-friendly manual includes the most pertinent information on instrumentation, anteroposterior and postero-anterior approaches, and basic and advanced dissection techniques.

**SALES HOOKS**  
- This second edition has more detailed surgical illustrations, with easy-to-read labels that guide readers through basic and advanced endoscopic procedures  
- A convenient spiral binding facilitates easy use in the lab

**COMPETITION**  
No competition information
CONTENTS
OVERVIEW

Section 1: Introduction on Endoscopic Sinonasal Surgical Landmarks
1. Introduction to Endoscopic Sinonasal Surgery
2. Anteroposterior versus Posteroanterior Approaches through the Paranasal Sinuses
3. The Use of Anatomical Landmarks: A Step-wise Approach to the Paranasal Sinuses

Section 2: Basic Endoscopic Sinonasal Surgical Anatomy and Techniques
4. Instrumentation and Operating Room Setup
5. Sinonasal and Skull Base CT Anatomy
6. Magnetic Resonance Sinonasal and Skull Base Anatomy
7. Endoscopic Intranasal Examination
8. Inferior Turbinoplasty and SMR of the Inferior Turbinate
9. Septoplasty
10. Middle Turbinoplasty
11. Middle Meatal Maxillary Sinusotomy
12. Anterior Ethmoidectomy
13. Posterior Ethmoidectomy
14. Sphenoid Sinusotomy
15. Retrograde Dissection Along the Skull Base for Advanced Sinonasal Disease
16. Frontal Sinusotomy

Section 3: Advanced Endoscopic Sinonasal, Orbital, and Skull Base Surgical Anatomy and Techniques
17. Olfactory Anatomy
18. Nasolacrimal System and Dacryocystorhinostomy
19. Orbital Decompression
20. Optic Nerve Decompression
21. Anterior and Posterior Ethmoid Arteries
22. Extended Maxillary Sinusotomy and Medial Maxillectomy
23. Extended Frontal Sinusotomies
24. Extended sphenoid sinusotomy
25. Sphenopalatine and Vidian Foramina, and Pterygopalatine Fossa
26. Infratemperal fossa and transpterygoid approach to Meckel’s Cave
27. Sellar and Suprasellar Anatomy
28. Lateral Sphenoid wall and Cavernous Sinus
29. Anterior Skull Base Resection
30. Clivus, Petrous Apex, Cranio cervical Junction, and Odontoid Decompression
31. Nasopharyngectomy and Parapharyngeal Carotid Artery
32. Orbital Anatomy
33. Nasoseptal and Inferior Turbinate Vascularized Flaps
34. Skull base Reconstruction
35. External Approaches to the Paranasal Sinuses and Pericranial Flap for Skull Base Reconstruction
36. Transorbital Approaches to the Paranasal sinuses
37. Considerations in the Pediatric Age Group
