Contents

Upper Limb

1 General Overview  4
  1.1 Anatomy  4
  1.2 Important Topographical Anatomical Relations in the Region of the Brachial Plexus  7
  1.3 Motor and Sensory Supply of the Upper Limb  9

2 Interscalene Techniques of Brachial Plexus Block  10
  2.1 Anatomy  10
  2.2 General Overview  12
  2.3 Meier Technique  14
  2.4 Dorsal Technique (Pippa Technique)  21
  2.5 Sensory and Motor Effects of the Interscalene Block  23
  2.6 Indications and Contraindications for the Interscalene Block  24
  2.7 Supraclavicular Nerve Block (Cervical Plexus)  24
  2.8 Complications, Side Effects, Method-Specific Problems  26

3 Infraclavicular Techniques of Brachial Plexus Block  30
  3.1 Anatomical Basis  30
  3.2 Vertical Infraclavicular Block (VIB) according to Kilka, Geiger, and Mehrkens (Kilka et al. 1995)  33
  3.3 Raj Technique, Modified by Borgeat  42
  3.4 Sensory and Motor Effects  46
  3.5 Indications and Contraindications  46
  3.6 Complications, Side Effects, Method-Specific Problems  47

4 Suprascapular Nerve Block  48
  4.1 Anatomical Basis  48
  4.2 Meier Technique  50
  4.3 Sensory and Motor Effects  53
  4.4 Indications and Contraindications  53
  4.5 Complications, Side Effects, Method-Specific Problems  54

5 Axillary Block  55
  5.1 Anatomical Basis  55
  5.2 Perivascular “Single-Injection” Technique  58
  5.3 Sensory and Motor Effects  62
  5.4 Indications and Contraindications  64
  5.5 Complications, Side Effects, Method-Specific Problems  64
  5.6 Multistimulation Technique, “Mid-Humeral Approach” According to Dupré (Dupré 1994)  65

6 Selective Block of Individual Nerves in the Upper Arm, at the Elbow and Wrist  71
  6.1 Radial Nerve Block (Middle of Upper Arm)  71
  6.2 Blocks at the Elbow  73
  6.3 Blocks at the Wrist (Hand Block)  80
Lower Limb

7 General Overview 88
7.1 Lumbosacral Plexus 88
7.2 Sensory Innervation of the Leg 92

8 Psoas Compartment Block 94
8.1 Anatomical Overview 94
8.2 Technique of Psoas Compartment Block 96
8.3 Sensory and Motor Effects 104
8.4 Indications and Contraindications 104
8.5 Complications, Side Effects, Method-Specific Problems 104
8.6 Remarks on the Technique 108
8.7 Summary 110

9 Inguinal Paravascular Lumbar Plexus Anesthesia ("3-in-1 Technique" according to Winnie, Femoral Nerve Block) 111
9.1 Anatomical Overview 111
9.2 Femoral Nerve Block ("3-in-1 Technique") 114
9.3 Sensory and Motor Effects 121
9.4 Indications and Contraindications 121
9.5 Complications, Side Effects, Method-Specific Problems 121
9.6 Remarks on the Technique 122

10 Proximal Sciatic Nerve Block 126
10.1 Anatomical Overview 126
10.2 Anterior Proximal Sciatic Nerve Block (with Patient in Supine Position) 129
10.3 Dorso-Dorsal (Proximal) Sciatic Nerve Block (according to Raj) (in supine position) 142
10.4 Proximal Lateral Sciatic Nerve Block (with Patient in Supine Position) 145
10.5 Proximal Sciatic Nerve Block (with Patient Lying on Side) 147
10.6 Parasacral Sciatic Nerve Block (Mansour Technique) 156

11 Blocks at the Knee 159
11.1 Anatomical Overview 159
11.2 Classical Popliteal Block, Dorsal Approach 159
11.3 Distal Block of the Sciatic Nerve 160

12 Peripheral Block (Conduction Block) of Individual Nerves of the Lower Limb 175
12.1 Lateral Cutaneous Nerve of the Thigh 175
12.2 Infiltration of the Iliac Crest 180
12.3 Obturator Nerve Block 182
12.4 Saphenous Nerve Block 190
12.5 Fibular Nerve Block 198
### 13 Peripheral Nerve Blocks at the Ankle
