Contents

Part I Theory and Practice of Neural Therapy According to Huneke 1

■ Introduction 3
  Facts to Remember 3

■ A Teachings, Theories, Experiments, Terms, and Definitions 4
  1 Chronological Survey 4
  2 Theoretical Principles 9
  3 Biocybernetics and Neural Therapy 11
     a) The Organism as Homeostat 12
     b) The Economic Principle 13
     c) The Control-Circuit Principle 13
     d) Biocybernetics and its Theoretical and Practical Applications in Medicine 14
     e) Neural Therapy as Regulating Therapy 15
  4 Ricker’s Pathology of Related Structures 17

■ B Neural Therapy According to Huneke 46
  1 Brief History of Neural Therapy According to Huneke 46
  2 The Art of Healing and Orthodox Medicine 49

■ C Practical Applications 62
  1 Segmental Therapy 62
     a) Basic Principles 62
     b) Examining the Patient 66
     c) Segmental Reactions and their Correct Attribution 74
     d) Segmental Zones of Individual Organs 75
  2 The Interference Field and its Elimination by Means of a Lightning Reaction (Huneke Phenomenon) 78
     a) The Conditions for a Lightning Reaction (Huneke Phenomenon) 83
     b) Taking the Case History 86
     c) Searching for the Interference Field 89
     d) Test and Provocation Methods 114
  3 Rejuvenation Through Procaine? 121
Part II Encyclopedia of Neural Therapy

Introduction 127
Facts to Remember 127
Symbols Used in the Text 127
Alphabetical List of Conditions and Indications 127

Part III The Techniques of Neural Therapy

Introduction 263
Facts to Remember 263
Materials 265
a) Syringes 265
b) Needles Used in Injections 265
c) General Equipment Required by the Neural Therapist 266
d) Accident and Emergency Equipment 266
The Question of Skin Disinfection 267
Procaine (Novocaine), “King of Medicines” 269
The Question of Dosage 275
Maximum Doses without Vasoconstrictors 276
Procaine Hypersensitivity and Accidents 277
Allergy Tests 278
Countermeasures in Accidents 280
a) Psychogenic Reactions and Mild Collapse 280
b) Hyperventilation Tetany 280
c) Allergic Reactions 280
d) Anaphylactic Shock 281
e) Poisoning Due to Overdose 281
f) Shock Conditions 281
g) Further Precautions and Contraindications 281
Important Rules for Practical Applications 285
Alphabetical List of Injection Techniques 289
Afferent Arteries 289
Autohemotherapy 295
Cerebrospinal-fluid Pump (CSF Pump) According to Speransky 295
Cisternal Procaine Injection According to Reid 296
Epidural (Lower) or Caudal Anesthesia 298
Epigastrium 300
Frankenhaeuser’s Ganglia 300
Intercostal Nerves 302
Intramuscular Infiltration 303
Intravenous Procaine Injections 304
Joints 305
Mastoid Process 312
Maxillary Tuberosity and the Maxillary Nerve 313
Nasal Conchae 313
Nasal spray 314
Nerves 314
Paranasal Sinuses 328
Paravertebral Anesthesia 328
Pelvic Region 329
Peridural Anesthesia 330
Ponndorf’s Vaccination 332
Preperiestal Infiltration 333
Preperitoneal Infiltration 333
Presacral Infiltration 334
Prostate 335
Quaddle Therapy 337
Sacral Foramina (Posterior) 341
Scalp 341
Scars 343
Sciatic Nerve and its Branches 344
Sympathetic Chain and its Ganglia, Parasympathetic Head Ganglia, and Anesthesia of the Celiac Ganglion 350
Teeth 376
Thyroid 378
Tonsils 376
Trochanter Major 382
