This fourth edition of *Facial Plastic and Reconstructive Surgery* keeps readers up-to-date on recent developments in the field, including microvascular techniques, minimally invasive cosmetic procedures, and unique applied technologies. Along with comprehensive surgical chapters, the text addresses practical issues driving changes in facial plastic surgery practice: ethnic variations, anti-aging strategies, ambulatory surgical concerns, and evidence-based decision making.
### SALES HOOKS

- Online access to more than 30 videos demonstrating the latest procedures and techniques
- New chapters on African rhinoplasty, facial paralysis treatment, evidence-based facial plastic surgery, tissue engineering, costal rib utilization techniques, and face transplants
