

TITLE	Bostwick's Plastic and Reconstructive Breast Surgery 4th Edition
PRICE	€409.99
ISBN	9781626238121 (Previous Edition: 9781626236165, 2009)
PUBLICATION DATE	February 2020
FORMAT	Hardcover · 3050 Illustrations · 1389 Pages · 8.5 X 11 IN
MEDIA CONTENT	Complimentary MedOne eBook and Videos
SPECIALTY	Plastic Surgery, General Surgery, Breast Surgery
LEVEL	Plastic surgeons and General/breast surgeons

EDITORS **Glyn E. Jones, MD, FRCS (Ed), FCS(SA), FACS**, Professor of Plastic Surgery, University of Illinois College of Medicine, Peoria, Illinois.

DESCRIPTION Few surgical texts are able to provide readers with a level of descriptive and visual detail sufficient to be considered a primary manual for surgical procedures. Surgeons typically face the daunting task of extensive research through various texts to piece together a picture comprehensive enough to guide them through a new procedure. This prospect is especially formidable in the field of plastic and reconstructive breast surgery, in which techniques are constantly evolving and older texts describe procedures that have long since been supplanted by superior methods and innovative approaches.

This fourth edition of *Bostwick's Plastic and Reconstructive Breast Surgery*, edited by premier breast surgeon Glyn E. Jones, provides just that manual for breast and plastic surgeons. This comprehensive text encompasses every key ingredient for a step-by-step surgical guide to breast surgery:

- An expanded microsurgical section incorporating the most widely used flaps and recent advances
- Extensive coverage of revolutionary prepectoral breast reconstruction, both single stage direct-to-implant approaches and 2-stage expander-implant pre-pectoral reconstruction
- A comprehensive approach to lymphedema surgery
- Exposure to state-of-the-art implant technology
- Contributing authors from around the globe who are heralded as the best in their field at technique and innovation
- Detailed coverage of relevant and groundbreaking new technologies that are redefining plastic surgery of the breast
- Step-by-step detailed technical operative details including technical nuances rarely outlined in surgical texts
- High-quality, updated surgical images and intricate surgical illustrations as well as pertinent radiographic examples
- An extensive collection of pertinent surgical videos, which stream directly from the publisher's website
- Technical caveats to ensure success of the surgical techniques described
- Concise but thorough chapters presented in both print and electronic formats for easy access by busy surgeons

Surgeons must be highly skilled in cosmetic breast surgery as well as in prepectoral approaches, single-stage direct-to-implant reconstruction, and microsurgery to remain competitive in the plastic and reconstructive breast surgery field. Every dedicated breast surgeon will want this essential text at their fingertips!

This book includes complimentary access to a digital copy on <https://medone.thieme.com>.

COMPETITION *Surgery of the Breast: Principles and Art, 3rd ed.*, Spear, 1700 pages, Lippincott Williams & Wilkins, 2010, \$515.
Aesthetic and Reconstructive Surgery of the Breast, 1st ed., Hall-Findlay/Evans, 700 pages, Elsevier, 2010, \$314.

CONTENTS

Volume I

Part I: Basic Principles

Chapter 1: Anatomy, Physiology, and Aesthetics

Chapter 2: Breast Aesthetics

Chapter 3: Oncological Aspects of Nipple-Sparing Mastectomy

Chapter 4: Oncological Aspects of Breast Reconstruction

Chapter 5: Gene Mutations and Breast Cancer Risk: Overview and Management

Chapter 6: Multimodality Imaging in the Interdisciplinary Management of Breast Diseases

Chapter 7: Technological Advances in Breast Surgery

i. Acellular Dermal Matrices

ii. Biological Matrix Applications in Breast Reconstruction

Chapter 8: Fat Grafting in Breast Surgery: The Data

Chapter 9: Fat Grafting to the Breast: Aesthetic and Reconstructive Applications

Chapter 10: Fat Grafting to the Breast in Prepectoral Breast Reconstruction: A Current Overview

Part II: Augmentation Mammoplasty

Chapter 11: Preoperative Evaluation of the Breast Augmentation Patient

Chapter 12: Implant Technology

Chapter 13: Breast Implant-Associated Anaplastic Large Cell Lymphoma

Chapter 14: Augmentation Mammoplasty with Cohesive Gel Implants

Chapter 15: Subpectoral Breast Augmentation (Inframammary Approach)

Chapter 16: Subfascial Inframammary Breast Augmentation

Chapter 17: Transaxillary Approach to Endoscopic Breast Augmentation

Chapter 18: Periareolar Breast Augmentation

Chapter 19: Managing Asymmetry and Congenital Anomalies

Chapter 20: Managing Complications in Breast Augmentation

Part III: Mastopexy

Chapter 21: Decision Making in Mastopexy

Chapter 22: Periareolar Mastopexy

Chapter 23: Vertical Mastopexy

Chapter 24: The Wise Pattern Mastopexy

Part IV: Mastopexy Augmentation

Chapter 25: Decision Making in Mastopexy Augmentation

Chapter 26: Periareolar Mastopexy Augmentation

Chapter 27: Vertical Mastopexy Augmentation

Chapter 28: The Wise Pattern Mastopexy Augmentation

Chapter 29: Prevention and Management of Complications in Mastopexy Augmentation

Part V: Massive Weight Loss

Chapter 30: Breast Surgery after Massive Weight Loss

Part VI: Reduction Mammoplasty

Chapter 31: Vertical Superior Pedicle Breast Reduction (Modified Lassus Technique)

Chapter 32: Superomedial Vertical Breast Reduction

Chapter 33: Superomedial Pedicle Technique with Inverted-T Closure (Wise Pattern)

Chapter 34: Central Mound Inferior Pedicle Technique

Chapter 35: Free Nipple Graft Technique

Chapter 36: Outcomes and Reducing Complications in Breast Reduction

Chapter 37: Gynaecomastia: Evaluation and Treatment

Volume II

Part VII: Non-Microsurgical Breast Reconstruction

Chapter 38: Decision Making in Breast Reconstruction

Subpart A: Implant-Based Reconstruction

- Chapter 39: Prepectoral Breast Reconstruction: Direct-to-Implant versus Two-stage
Chapter 40: Two-Stage Subpectoral Tissue Expander-Implant Reconstruction
Chapter 41: Subpectoral Direct-to-Implant Single-Stage Reconstruction
Chapter 42: Prepectoral Direct-to-Implant Breast Reconstruction
Chapter 43: Prepectoral Site Conversion for Animation Deformity
Chapter 44: Two-Stage Prepectoral Prosthetic Breast Reconstruction
Chapter 45: Preventing and Managing Complications of Expander-Implant Reconstruction
Chapter 46: Implant-Based Reconstruction and Radiation
Subpart B: Latissimus Dorsi Flap Reconstruction
Chapter 47: Latissimus Dorsi Flap Anatomy
Chapter 48: Latissimus Dorsi Flap Reconstruction
Chapter 49: Preventing and Managing Complications in Latissimus Dorsi Flap Reconstruction
Subpart C: Pedicled TRAM Flap Reconstruction
Chapter 50: Anatomy of the TRAM Flap and Abdominal Donor Site
Chapter 51: Transverse Rectus Abdominis Musculocutaneous Flaps
Part VIII: Microsurgical Breast Reconstruction
Subpart A: DIEP Flap
Chapter 52: Preoperative Planning and Imaging of the DIEP Flap
Chapter 53: DIEP Flap Reconstruction and Technique
Chapter 54: Prevention and Management of Complications in DIEP Flap Reconstruction
Subpart B: Muscle-Sparing Free TRAM Flap
Chapter 55: Muscle-Sparing Free TRAM Flap Reconstruction
Subpart C: Superficial Inferior Epigastric Flap
Chapter 56: Superficial Inferior Epigastric Artery Perforator Flap
Subpart D: Thigh-based Free Flaps
Chapter 57: Transverse Upper Gracilis Flap
Chapter 58: Profunda Artery Perforator Flap
Subpart E: Alternate Perforator Flap Donor Sites
Chapter 59: Gluteal Artery Perforator Free Flap
Chapter 60: Lumbar Artery Perforator Flap
Part IX: Miscellaneous
Subpart A: Oncoplastic Breast Conservation Surgery
Chapter 61: Principles of Oncoplastic Breast Surgery and Patient Selection
Chapter 62: Oncoplastic Reconstruction by Tumor Location and Outcomes
Chapter 63: Managing Complications after Breast Radiation Therapy
Subpart B: Nipple-Areolar Reconstruction
Chapter 64: Nipple-Areolar Reconstruction
Subpart C: Lymphedema
Chapter 65: Surgical Treatment of Lymphedema
Subpart D: Complex Case Salvage
Chapter 66: Salvage of Complex Problems
-
